JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The Librarian read the translation of a letter from Pierre de Goetz to Mr. Du Ponceau, dated St. Petersburg, August 17th (29th) 1837, on behalf of the Imperial Russian Academy, announcing the transmission to the Society of the works which have been published by the Academy, numbering fifty-seven volumes, and also of a donation of several volumes from himself personally.

Dr. Bache announced the death of Thomas Bradford, the latest survivor of the original members of the Society, who died on the 7th of May, 1838, aged 93 years and 3 days.

Dr. Hare communicated orally, that he has found that when the elements of water are exploded in contact with certain gases or essential oils, the aqueous elements, instead of condensing, combine with the hydrogen and carbon, and form a permanent gas.

On motion of Dr. Bache, a committee was appointed to consider the expediency of publishing, from time to time, a brief abstract of the proceedings of the Society. Committee, Dr. Bache, Dr. Duglison, and Mr. Kane.

Stated Meeting, June 15.

Present, seventeen members.

Mr. DU PONCEAU, President, in the Chair.

The following donations were received:—

FOR THE LIBRARY.

Boston Journal of Natural History. Published by the Boston Society of Natural History.—Vol. II. No. 1. Boston, 1838.—*From the Society.*

The Committee appointed at the last meeting to consider the expediency of publishing from time to time, a brief abstract of the proceedings of the Society, reported in favour of its expediency, and in order to carry the measure into effect, proposed the following resolutions, which were adopted.

1. That the Secretaries be authorized to choose one of their number as Reporter of the Society, whose duty it shall be to prepare and print, from time to time, a brief abstract of its proceedings.

2. That the Reports shall commence with the first proceedings of the present year.

3. That the Librarian be charged with the duty of their distribution.

And it was directed that the Reports be published at least once in every three months, if the state of the materials shall permit.

Dr. Hays, from the Committee of Publication, announced

that Vol. VI. Part I., N. S., of the Society's Transactions, has been printed, and is now ready for distribution.

A communication was read, dated Cincinnati, May 7th, 1838, from Dr. John Locke, on the subject of Magnetic Observations, which was referred.

Dr. Dunglison announced the death of Thomas W. Griffith, of Baltimore, a member of the Society.
